

中国女性耽美“双性”色情消费的现实逃避与欲望妥协

摘要：

研究背景与核心问题

耽美（BL）作为主要由女性创作与消费的亚文化，其色情衍生品在中国大陆女性群体中拥有庞大受众。近年来，一种名为“双性文”的特殊设定——即主角（通常为受方）同时拥有男性与女性性器官的色情小说——迅速崛起并成为流行趋势。以往研究多将其视为对同性恋的模仿或女性突破男性凝视的尝试，但这无法解释为何生理特征被扭曲的“双性人”能引发女性读者的狂热。本研究不再局限于表层的文本分析，而是切入当代女性隐秘的性心理，旨在探究：在父权制色情制品规训下形成的客体化性癖好，与女性逐渐觉醒的平权意识产生激烈违背时，耽美“双性文”如何作为一种折中的奇观机制，帮助女性规避道德审查并安全地获取性唤起。

研究方法

本研究采用定性文本分析与深度访谈相结合的方法。一方面，选取中文耽美色情小说网站“海棠”热度排名前十中的三部典型“双性文”作为文本分析对象；另一方面，对4位深度参与耽美文化创作与消费的受访者进行半结构化访谈，以挖掘文本现象背后的受众心理机制。

研究发现

本研究的核心发现集中在文本的身体政治与读者的心理防御机制两个层面：

器官的挪用与男性气质的降格：双性文通过一种“女人的器官与男人的灵魂”的错位设定，为占据社会优势地位的男性（如骑士长等）强加上女性生殖器。这种强行插入式的阴道性交，将处于统治地位的“支配性男性气质”降格为“从属性男性气质”。然而，这种对父权的报复性反叛并不彻底，小说依然通过“攻”方的绝对主导以及对女性器官的荡妇羞辱式贬低，完成了父权逻辑的再生产。

性欲规训与道德觉醒的剧烈撕裂：访谈表明，受访女性的性癖好深受传统厌女与父权文化的规训，在性幻想中往往偏好处于被支配、甚至被客体化的地位。然而，随着女性主义意识的觉醒以及对现实社会中女性受害事件（如韩国N号房事件）的关注，受访者在消费包含女性受虐情节的传统色情制品时，会产生强烈的共情、尊严受辱感以及道德愧疚感。这种精神上的创伤联想极大地阻断了她们获取性快感的可能。

研究结论

作为“道德避难所”的虚构客体，研究认为，耽美“双性文”的流行是当代中国女性在性幻想中面临特殊困境的产物。它创造了一种精妙的妥协机制：

保留性唤起：通过极其写实的女性器官描写，女性读者能够顺畅地产生生理代入感与性唤起。

规避道德审查：因为遭受客体化对待和性暴力的主体在设定上是“虚构的男性”，读者不必将文本中的暴虐与现实中女性的生存苦难相链接。这种“非我族类”的身份隔离大大减轻了女性主义者在进行情色消费时的尊严受辱感与负罪感。最终，双性文成为了一种“道德上安全”的色情制品，为女性提供了一个可以安放规训欲望的隐秘避难所。

学术贡献

本研究跳出了传统的耽美文学研究框架，将“双性”设定视作一种解决女性内部道德与欲望冲突的文化症候。它深刻揭示了女性如何通过创造一种“不流血的客体”来化解父权制底色与女权主义道德立场之间的张力，为理解网络亚文化中的女性凝视、身体政治与心理防御机制提供了全新的实证案例与理论解释。

Escaping Reality and Compromising Desire in Chinese Women's Consumption of Danmei "Intersex" Erotica

Abstract:

Research Background and Core Questions

Danmei (Boys' Love, BL), as a subculture primarily created and consumed by women, has a massive audience for its erotic derivatives among women in mainland China. In recent years, a specific trope known as "intersex fiction" (shuangxing wen)—erotic novels where the protagonist (usually the "shou" or bottom) possesses both male and female sexual organs—has rapidly emerged and become a popular trend. Previous studies have mostly viewed this as an imitation of heterosexuality or an attempt by women to break through the male gaze. However, this fails to explain why "intersex" characters with distorted physiological features can trigger such fanaticism among female readers. Moving beyond superficial textual analysis, this study delves into the hidden sexual psychology of contemporary women. It aims to explore how, when the objectified sexual fetishes disciplined by patriarchal pornography fiercely clash with women's gradually awakening consciousness of gender equality, Danmei "intersex fiction" serves as a compromising mechanism of spectacle, helping women circumvent moral scrutiny and safely attain sexual arousal.

Research Methods

This study employs a combination of qualitative textual analysis and in-depth interviews. On the one hand, three typical "intersex" novels from the top ten most popular works on the Chinese Danmei erotica website "Haitang" were selected as objects for textual analysis; on the other hand, semi-structured interviews were conducted with four participants deeply involved in the creation and consumption of Danmei culture to uncover the psychological mechanisms of the audience behind this textual phenomenon.

Findings

The core findings of this study are concentrated on two levels: the body politics of the texts and the psychological defense mechanisms of the readers:

Appropriation of Organs and Degradation of Masculinity: Through a displaced premise of "women's organs and a man's soul," intersex fiction forcibly imposes female genitalia on men occupying socially advantageous positions (e.g., a knight commander). This forced penetrative vaginal intercourse degrades the dominant "hegemonic masculinity" into "subordinate masculinity." However, this retaliatory rebellion against patriarchy is incomplete. The novels still achieve the reproduction of patriarchal logic through the absolute dominance of the "gong" (top) and the slut-shaming degradation of female organs.

Severe Tear Between Disciplined Sexual Desire and Moral Awakening: Interviews reveal that the interviewees' sexual fetishes are deeply disciplined by traditional misogynistic and patriarchal cultures, often preferring a dominated or even objectified position in sexual fantasies. However, with the awakening of feminist consciousness and attention to real-world incidents of female victimization (such as South Korea's Nth Room case), the interviewees experience strong empathy, a sense of compromised dignity, and moral guilt when consuming traditional pornography containing scenes of female abuse. This mental association with trauma severely blocks their possibility of attaining sexual pleasure.

Conclusion

The Fictional Object as a "Moral Sanctuary" The study posits that the popularity of Danmei "intersex fiction" is a product of the unique dilemma contemporary Chinese women face in their sexual fantasies. It creates an exquisite mechanism of compromise:

Preserving Sexual Arousal: Through highly realistic descriptions of female organs, female readers can smoothly generate physiological immersion and sexual arousal.

Circumventing Moral Scrutiny: Because the subject suffering objectification and sexual violence is established as a "fictional male," readers do not have to link the cruelty in the text to the real-world existential suffering of women. This "not of my kind" identity segregation significantly alleviates the sense of compromised dignity and guilt experienced by feminists during erotic consumption. Ultimately, intersex fiction becomes a "morally safe" erotic product, providing women with a hidden sanctuary where their disciplined desires can be placed.

Contribution

This study steps outside the traditional framework of Danmei literature research, viewing the "intersex" trope as a cultural symptom that resolves women's internal conflicts between morality and desire. It profoundly reveals how women, by creating a "bloodless object," defuse the tension between a patriarchal undertone and a feminist moral stance, providing fresh empirical cases and theoretical explanations for understanding the female gaze, body politics, and psychological defense mechanisms within internet subcultures.
